

Year 5 Spring 1

Home Learning

This half term, we are going to be learning about **forces** in our science lessons. In history, we will be learning about the **Victorian period**.

The deadline for projects to be uploaded to Google Classroom or brought into school is **Monday 5th February 2024**.

The Victorians

1. Draw what a typical Victorian child would have looked like and write a description of their daily life.
2. Research and present some ideas around the changes that Queen Victoria made to the monarchy.
3. Using a medium of your choice, present your learning about the significance of the Industrial Revolution.

Forces

- 1) Create a paper helicopter (look online for instructions). Observe and note down the effect of gravity and air resistance.
- 2) Create a word search using key vocabulary that we may use within our forces learning (use the knowledge organiser and learning walls to help you to identify these words).
- 3) Produce an illustrated written account about the famous scientist who discovered gravity and explain how they discovered it.
