

Year 6 Summer 1

Home learning

This half term we are going to be learning about Ancient Maya Civilisation in our history lessons and Animals including Humans in science lessons. Please choose **one** activity from either subject to complete.

The deadline for projects to be uploaded to Google Classroom or brought into school is **Monday 20th May 2024**.

Ancient Maya

1. Find out about Mexico using information books and the internet and create a fact file. You might like to include Mexico's official name, its capital city, flag, location in the world, form of government, current president, population, geographical features, climate, natural resources, main religion, currency and the official language used by its people.
2. Find out about the ancient Maya civilisation using the internet or information books, then create an information poster about one area of the Maya civilisation that you have found interesting.
3. Traditional Mexican food is enjoyed by people across the world. Work with an adult to find and then follow a simple recipe to prepare and cook a Mexican dish to enjoy with your family. You could try guacamole, enchiladas, tacos, fava bean soup or even churros for dessert.

Light

1. Investigate shadows. Have fun looking at where and when shadows form, how you can make them bigger or smaller. If you can get outside at different times on a sunny day, see how shadows change their size and direction. Write a report to share your findings.
2. Explore the eye, find out how they allow us to see and present your findings in your own way (Presentation, Report, Poster)
