

Year 1 Spring 1

Home learning

This half term we are going to be learning about Animals, including humans in our science lessons and Toys Over Time in history lessons. Please choose **one** activity from either subject to complete.

The deadline for projects to be brought into school is **Friday 6th February 2026**.

Animals, including humans

1. Look at pictures of wild animals. Choose three, then use information books and the internet to find out where in the world they live, what they eat and their habitat. Record your findings in a table.
2. Choose a pet that you would like to investigate. Research how to look after the pet. Record your findings, including what pet you have chosen, what it eats, where it should live and any special things this pet needs.
3. Use the internet to find out about wildlife parks or zoos near you. Find out about the animals that are kept there and how the keepers look after them. Make a fact file with pictures and information. It could be about the wildlife park or zoo, an animal that people can see there, or you might like to write about who the keepers are and what they do.

Toys Over Time

1. Ask your parents and grandparents about what toys and games were like when they were children. If possible, film their answers to show your class at school. (email to info@ashford-park.surrey.sch.uk)
2. Here are some pictures of toys that were popular in the past. Name each toy and write a sentence to say how these toys are different from the toys that you play with.
