

Year 6 Spring 1

Home learning

This half term we are going to be learning about Animals including Humans in our science lessons and Trade in geography lessons. Please choose one activity from either subject to complete.

The deadline for projects to be uploaded to Google Classroom or brought into school is **Monday 9th February 2026**.

Trade

1. Fair Trade Poster - Think about and research further what you have learnt about the importance of fair trade. Choose a fair-trade product and create an advert for it. How can you persuade people that fair trade is worth the extra cost?
2. A Global Meal - Have a look through your food cupboards at home. Choose some of the items you have found to create a meal. Identify on a world map where the ingredients originate from.
3. Fair Trade Product - Choose a fair-trade product and research its journey from its origin country to the UK. How far does it travel? What other countries does it pass through on its journey? Etc. Mark its country of origin on a world map and the journey it takes to reach the UK.

Animals including Humans

1. Find out how to keep your heart healthy. Write a set of instructions for an adult audience explaining how they can keep their heart healthy. Visit the British Heart Foundation website for useful information.
2. Design a cardiovascular workout for you and your family. Draft a plan and invite everyone to join in, then ask them to evaluate your routine.
3. Find out about William Harvey and why he is significant. Write a short profile about him and his work.
