

Year 2 Spring 2  
Home learning

This half term we are going to be learning about English heritage and monarchy through our castle's topic. We will also be learning about animals including humans in Science.

The deadline for projects to be brought into school is

Friday 20<sup>th</sup> March 2026

### Monarchy and Castles

1. Create an information poster about King Charles III.
2. We will be looking at the family tree of our monarchy. Show us your heritage with your own family tree.
3. Build your own castle. This can be drawn, junk modelled or visual media.

### Animals including Humans

1. List a group of animals and find out what they call their offspring.
2. Growing Up Timeline (Human or Animal) Children create a simple timeline showing how a baby grows into an adult. This can be: A human (baby → child → adult), or an animal (e.g. chick → chicken, puppy → dog).
3. Make your own, Who Am I? Guess the Offspring Game. Think of an animal offspring (e.g. kitten, chick, puppy, calf. Ask yes/no questions to guess the animal, such as: "Do you grow into a big animal?" "Do you live on a farm?").
