

## **Ashford Park Primary School**

*Inspiring a love for lifelong learning*

### **LEADERSHIP**

Thank you for the interest that you have shown in a leadership role at our school. We are a dynamic group of experienced and passionate educators with an innovative approach to school leadership and management. With a range of experiences locally and nationally, each of us brings a unique and important perspective to the school. We are driven by a deep social responsibility to our community and its environment, focused on eliminating the gaps between high performing and lower performing pupils. We value professional relationships and work hard to create a school environment that is focused on engaging learning and excellent teaching, underscored by a warm and welcoming nature with pupils, teachers, support staff, parents and the community at large.

### **TEACHING**

We are delighted that you are interested in a teaching career at Ashford Park Primary School. We are a talented and diverse group of teachers, representing countries from around the globe. We celebrate our cultures and strengths and are unified in our approach to helping our pupils become the best they can be. We do this with the belief that all pupils, regardless of their conditions in life, can achieve excellent outcomes when surrounded and supported by talented teachers with high expectations and purpose driven parents and carers. We know that learning in the primary school setting can transform a child's life and we are in the business of learning.

### **LEARNING SUPPORT**

We are pleased that you are interested in a Support Staff position at our school. We are a multicultural and dedicated team of caring and committed adults that perform a variety of roles around the school. Some of us work in the school office, others in classrooms and the Acorn Centre supporting pupils with additional educational needs, and you will undoubtedly find us running exciting clubs at lunchtime and even after school. We often work behind the scenes to make sure that the everyday school life runs as smoothly as possible. We know that successful learning in our school requires the effort of the entire learning community - including teachers, school leaders, parents, community members and support staff.
